## Relevant Experience

Front-End Developer · **Accenture Pte Ltd** Oct 2023 – Present

- Build enterprise-grade micro-frontend applications for CPF and IRAS, delivering public-facing and intranet systems using Angular, TypeScript, HTML5, CSS3, and Vanilla JavaScript
- Prototyped CPF proof-of-concepts using React, Tailwind CSS, and TanStack libraries (Forms, Query, Router)
- Implement reactive programming with RxJS and manage application state using NgRx
- Wrote unit tests using Jasmine to maintain code reliability, prevent regressions and ensure code coverage
- Integrated frontend with RESTful APIs using JSON payloads and responses, collaborating closely with backend team for test and validation
- Debugged UI and validation issues in Angular apps using DevTools, tested API payloads, and queried SQL databases to ensure accurate data flow and consistent UX
- Used Azure DevOps for pull requests, peer reviews, and automated build pipelines within an agile SDLC
- Interpreted Figma designs and UI specs to implement features aligned with business rules and use cases

Software Engineer · **Nalagenetics Pte Ltd** Jul 2022 – Aug 2023

- Built genetics interpretation software to support handling genetic samples.
- Developed and optimized the company's marketing website with SEO best practices
- Used Angular (TypeScript, HTML, SCSS, Git) for development, including backend API integrations
- Used Figma for UI prototyping and alignment with design teams
- Conducted thorough code reviews and reduce issues before QA testing
- Resolved bugs collaboratively with QA and product teams
- Managed documentation and project tasks using Jira/Atlassian

IT Support Engineer · **Nalagenetics Pte Ltd** Sep 2021 – Jun 2022

- Managed platforms on AWS EC2 and S3 environments for cloud infrastructure and storage services
- Organized and managed virtual/physical asset inventories while keeping track of their security compliances
- Built an internal IT Helpdesk portal using Jira for streamlined IT service management
- Handled user management onboarding/offboarding via JumpCloud
- Ensured ISO 27001 (Information Security Management) compliance by updating security policies and internal documentation

Regional IT Project Specialist · **GEODIS Singapore Pte Ltd** Aug 2020 – Apr 2021

- Worked with Software Application, IT Infrastructure and IT Service Management departments on APAC-level projects
- Managed high-level ITSM continuous service improvement project, collaborating with country IT managers to improve efficiency, cost, and resolution time of IT Support Teams
- Assisted on projects for demand management and server/PC migrations
- Supported CIO on project tracking, team updates, and resource alignment

## Skills

### Languages

TypeScript, JavaScript, HTML5, CSS3

### Frameworks & Libraries

Angular, React, RxJS, NgRx, Jasmine, Node.js, Express.js, jQuery, Bootstrap, Tailwind CSS, TanStack Library

### Tools & Platforms

Git (GitHub, Bitbucket, SourceTree), Azure DevOps, AWS, Postman, Figma, Jira

## Education

### University of Wollongong Australia

Bachelor of Business Information Systems

### Kaplan Higher Education

Diploma in Information Technology

## Certifications

### ICT Assessment Certifications for Software Developers

NUS-ISS
